## BASIC INFORMATION

Just a guy has a little passion to build wonderful websites, delivery the best quality to customers.

I'm a Ruby on Rails web developer with almost 2 years of experience in various fields of web development: Front-end, Back-end and Server Administration.

Like challenging myself, dare to take responsibilities, enjoy coding and learning new things everyday.

"Keep doing it while your eyes and hands can handle. Sooner or later one of the two will fail you and that work will be a great reminder of just how much talent you gave the world."

## EDUCATION

University of Science — Ho Chi Minh, Viet Nam  
(2010 - 2014)

Bachelor Degree in Software Development

## PROFESSIONAL EXPERIENCE

★ Web Developer, NUS Technology, VietNam  
(Sep 2016 - Present)

Working as a Ruby on Rails web developer, cooperate with BA and other developers to analyze and convert client's idea to requirements, build new features and maintain existing features.

★ Professional Analyst Programmer, CSC, VietNam  
(Jan 2015 - Aug 2016).

Analyzing business requirements from Singapore clients and transform to technical specifications  
Working alongside other developers to maintain and implement a huge system in various fields of Insurance industry.

Have worked onsite in Singapore to go live the product of Tokio Marine Singapore.

# PROJECTS

## BOX AT WORK

SEP 2016 - PRESENT

Website:

<https://www.boxie24.com/>

<https://www.boxatwork.com/>

This is a Germany startup that supply storage services in 16 cities in Germany, France, Netherlands and United States. It received Series A funding of € 5,5 million, and leading on-demand Self Storage platform.

I'm working on both backend and frontend for developing new features and maintain the current website (focus on payment system). I also have to deploy and monitor the server.

Rails 4.2   Ruby 2.2   PostgreSQL   CoffeeScript   HAML   Bootstrap

### TECHNICAL STACK

Elastic Search   Capistrano   Adyen Payment Platform   Mailgun

---

## IAMIP (INVENTION)

DEC 2017 - JAN 2018

Website:

<https://www.iamip.com/>

This is a one sub program of a management system used for managing ideas and inventions. The whole system is built on many platforms, but i just worked on the sub program implemented by Rails RESTful API for correcting business logic and fix some minor functions in back end.

### TECHNICAL STACK

Rails 5.1   Ruby 2.4   RESTful API   PostgreSQL   ReactJS

---

# SKILLS

### LANGUAGE:

English - Intermediate

### TECHNICAL SKILLS:

Rails   Ruby   HAML   Bootstrap   HTML5/CSS3   CoffeeScript   Javascript

PostgreSQL   Redis

Git   Capistrano
